Every Wednesday I look forward to playing the piano with you. I used to be thinking piano was a chore, but now I find it as a fun way to take a break. I am grateful for having you as my teacher. Merry Christmas and Happy New Year!

**Daphne Bonus, Student, Royal Conservatory of Music piano program. 17/12/2024**

Thank you for all that you have taught me these past few years. I appreciate all the extra time you've spent in our lessons; I sincerely enjoyed every second! You are incredibly passionate about the subject and that motivates me to keep striving to learn and never give up piano. Thanks again for being an important part of my high school years.

**Anita Gheorghe, Student, University of Waterloo, Canada, 11/01/21**

David was one of the best teachers/people I've met and always took to my interests, he would always show that he cares every lesson and he left a huge impact on me, he's not just an amazing music teacher, he's an amazing person. 11/10 a MUST.

**Luca Ciocany, Student/Amateur Soccer Player, Mississauga, Canada 10/03/20**

David is a wonderful teacher. He is attentive to the student's needs and employs concise and fun instructions. His use of the backing tracks enhance the learning experience! David would be an excellent teacher for anyone wishing to learn jazz as a beginner or for any intermediate to advanced pianists wishing to improve their skills. Highly recommended!

**Dr. Alan Bau MD, FRCPC, DABR/Jazz Pianist, Toronto, Canada 09-05-2017**

We are very glad David has been able to inspire our son to love piano so much. He can't stop playing it. My 7 year old daughter is no different. She enjoys her classes a lot. We were fearful that the discipline or practices that piano demands may scare her away, but again David makes her have fun while learning..Very satisfied! **Alvaro Baldoceda, Parent, Oakville, Canada Google+ 07-9-2015**

"Hey David, crazy use of delay. I think this is my favourite of your pieces. Cool melody, interesting background texture. I think you should explore this kind of sound more in the future. Great work!" Comment. **Loudon Sterns, Professor, Electronic Composition & Music Production, Berklee College of Music, Boston, MA 11-24-2013**
